

DAY 05 OF 05

POWER RESET

Turn five days of work into game-ready power.

GOAL TIME

POWER 20–25 MIN

05

Rapidly convert all your resetting into game-ready power. This is what the first four days were building toward. Land soft. Absorb first — then explode. Don't crash into the ground and hope. The power comes from control, not force — the same principle as every day this week.

MOVEMENT BLOCK Convert mobility to power**01 SKATER BOUNDS****3 × 4 EACH SIDE**

Land on one leg. Absorb and hold. Load before you explode.

02 SCISSOR JUMPS**3 × 8**

Quick switch. Land soft. Stay springy between reps.

03 SIDE LUNGE + CROSSOVER STEP**2 × 6 EACH SIDE**

Lateral load, then cross. Feel the hip working.

ATHLETIC BLOCK Speed and explosiveness**04 APPROACH JUMPS****3 × 3**

Two-step run-up. Jump, land, and stick. Full intent on each one.

05 REACTIVE SPRINTS (SHORT)**4 × 1**

Accelerate hard. Stop under control. 10–15 yards max.

06 DRIBBLE DRILLS (ANY)

1 ROUND

Move like a hooper. This is what the whole week was for.

07 LAYUPS

FULL INTENT

Finish clean at the rim. Every one counts.

08 PULL-UP JUMPERS

FULL INTENT

Explode to your spot. Shoot with authority.

WHAT YOU SHOULD FEEL

⬆ Light — move explosive ⬆ Reactive off the floor ⬆ Powerful when it counts

FOCUS Full intent every rep. Land soft, explode fast. Finish strong. Five days done — now go unleash your game.

THE RESET WAS THE START

STAY READY YEAR-ROUND

Five days fixed the stiffness. **BTH Stay Ready** is the system that keeps it fixed — the full month-by-month training system plus all 5 add-on tracks, built for hoopers who still play for real. A new block every month. Cancel anytime.

BTH STAY READY — \$27/MO
