

DAY 01 OF 05

HIP RELEASE

Open what pickup locks.

01

Most guys are tight here — not from age, but because pickup loads the hips and nobody ever resets them. Do these three moves in order. Take your time on each.

TODAY'S PROTOCOL

01 90/90 HIP SWITCH

3 ROUNDS · 30 SEC EACH SIDE

Sit on the floor, both legs bent at 90°. Rotate slowly side to side. Let the back hip open — don't force it, let gravity do the work.

02 COUCH STRETCH

2 ROUNDS · 45 SEC EACH LEG

Back knee on the floor, front foot forward. Drive hips forward. You'll feel the hip flexor immediately. Keep your glute squeezed on the rear leg.

03 GLUTE BRIDGE HOLD

3 ROUNDS · 10 REPS + 3 SEC HOLD

Feet flat, drive through your heels, squeeze hard at the top. Hold 3 seconds. Your glutes are probably not firing the way they should — this teaches them.

NOTE You'll feel this working before you finish. That's the hip flexors and glutes activating like they're supposed to.
